

PROVIDER: DENTALMEDTV S.R.L.

ID: 6781

SEDE SVOLGIMENTO EVENTO: DENTALMEDTV, corso Sicilia 51 Torino

TEL: 0110467004 **MAIL:** info@dentalmedtv.com

DATA SVOLGIMENTO: 14 – 15 MAGGIO 2027

ORARIO: Venerdì 09.00 – 18.30 / Sabato 09.00 – 18.30

TITOLO: **PAPILLA RECONSTRUCTION & SOFT TISSUE MANAGEMENT**

(Il corso si svolgerà in lingua inglese)

RELATORE: Dr. Jorge Alania

- Diplomado en Periodoncia Universidad Peruana Cayetano Heredia.
- Especialista en Periodoncia e Implantes UPCH.
- Profesor invitado en universidades de México - Honduras - Colombia - Bolivia y Perú.
- Miembro activo del International Team for Implantology ITI.
- Miembro de la Asociación Peruana de Periodoncia y Oseointegración.
- Miembro de la Asociación IberoPanamericana de Periodoncia.
- Conferencista nacional e internacional.

QUOTA DI PARTECIPAZIONE:

€ 1586,00 (€ 1300,00 + IVA)

Abstract:

The role of soft tissue in natural teeth and dental implants is crucial for aesthetics, health, and quality of life. Several techniques have been described that have proven successful in achieving root coverage, However, papilla reconstruction remains a challenge for clinicians, impacting their ability to achieve high aesthetic standards.

This course will illustrate the fundamentals, benefits, and surgical tips for a predictable coronally advanced flap (CAF) , CTG Wall Technique, Platform Tehnique and the novel Modified Vista Technique to resolve cases with papillae compromised.

When dealing with soft tissue defects at implant sites, the modification of these techniques and the integration of prosthetic concepts with soft tissue grafts will be explained in detail.

Participants will learn the most effective and innovative surgical techniques supported by the scientific literature and will perform these procedures in the practical sessions.

Method:

THEORY - HANDS ON - CLINICAL EXPERIENCE – 1 SURGERY PER PARTICPANT

PROGRAMMA:

Venerdì 14 maggio 2027

09.00 – 11.15:

- Mucogingival Deformities in natural teeth:
 - Etiology and Classification
 - CAF predictability in Root Coverage
 - Clinical and anatomical factor limiting treatment outcomes in gingival recessions

11.15 – 11.30:

- Coffee break

11.30 – 13.30:

- Root Coverage procedures with tunnel techniques in combination with CTG and substitutes
- The novel Modified Vista Technique
- Customization Grafting Concept for Papilla reconstruction

13.30 – 14.30:

- Lunch

14.30 – 16.30:

- Hands on 1:
- Current Coronally Advanced Flap (CAF)
- Connective Tissue Graft Wall Technique

16.30 – 18.30:

- Hands on 2:
- Modified Vista Technique and Sutures:
 - Double Crossed
 - Cornick suture
 - Gordian Knot
 - Belt and Suspender

PROGRAMMA:

Sabato 15 maggio 2027

09.00 – 11.15:

- Peri-implant phenotype: its role in maintaining peri-implant health and augmentation to improve aesthetics, stability, and patient reports

11.15 – 11.30:

- Coffee break

11.30 – 13.30:

- Immediate implant management
- Advanced soft tissue grafting procedures for aesthetic complications around implants

13.30 – 14.30:

- Lunch

14.30 – 16.30:

- Hands on 3:
 - VIP CTG (Vascularized Interpositional Periosteal Flap) in combination with Tuber.
 - Platform Technique

16.30 – 18.30:

- Hands on 4:
 - Platform Technique

MODALITA' DI PAGAMENTO:

Quota di iscrizione: **€ 1586,00 (€ 1300,00 + iva)**

Bonifico bancario intestato a: **DENTALMEDTV SOCIETA' A RESPONSABILITA' LIMITATA**

Causale del versamento: **CORSO DR. ALANIA MAGGIO 2027**

IBAN: **IT97S0200801107000106798019**

Per la conferma dell'iscrizione inviare a info@dentalmedtv.com copia contabile del bonifico e dati fiscali (comprensivo di codice univoco) per poter ricevere regolare fattura.
